

ARIANE

Efficient and innovative dishwashing technology

Swiss Made | The new generation of GEHRIG dishwashers

GEHRIG

**SWISS
MADE**

Great performance from a compact machine

UNDERCOUNTER DISHWASHER

Swiss Made | ARIANE GTW 3300: Glasswasher and dishwasher

Space-saving, energy-efficient, manufactured to the highest standards and available on request with a second rack to double the throughput. This undercounter dishwasher combines our customer's wishes with decades of engineering experience. Developed and produced in Switzerland, it washes remarkably quickly, uses little water even at full capacity and features a digital connection to GG+connect. It's a space-saving marvel – a combined glasswasher and dishwasher that fits under any counter.

Your benefits

- **Top performance**
Up to 30 racks per hour and up to 60 racks per hour with the double-rack system
- **Spotless results**
Steam rinse programme guarantees spotless (wine) glasses
- **Space-saving and flexible**
Meets SMS standard width of 55 cm (60 cm optional). This means it can replace old appliances without any expensive kitchen remodelling
- **Reduces operating costs**
Integrated 4-stage filter system keeps wash water noticeably cleaner for longer so needs to be replaced less often
- **Large, responsive display with rotary push button**
Easily legible from a distance, plus the integrated LED status ring shows the washing programme progress at all times
- **Excellent view**
The illuminated washing chamber ensures optimum visibility even in low-light surroundings
- **Economical**
Minimal water and power consumption
- **Easy to clean**
Thanks to a tank system with rounded corners
- **Thermal disinfection for ultimate hygiene**
Impeccable hygiene and thorough disinfection in just a few minutes – clean enough to satisfy even the strictest hygiene standards*

Available dimensions:

55 cm model: width 549 mm | depth 597 mm | height 850 mm

60 cm model: width 599 mm | depth 597 mm | height 850 mm

The all-rounder

HOOD DISHWASHER

Swiss Made | ARIANE GTW 3700: For crockery, glasses, pans and pots

Top performance, ample space and improved energy efficiency make this the ideal professional dishwasher for all crockery, glasses, pans and pots. Quick wash cycles, robust design and low water consumption: organise your kitchen to be more sustainable and efficient while still achieving superior results. A further bonus is that dishtables for clean or dirty dishes can be connected on three sides of this model.

Your benefits

- **Top performance**
Up to 30 racks per hour
- **Spotless results**
Steam rinse programme guarantees spotless (wine) glasses
- **Space-saving and flexible**
Dishtables for clean or dirty dishes can be added on three sides
- **Automation lessens the workload**
Washing starts automatically as soon as the hood is closed. Hood opens again once finished
- **Large, responsive display with rotary push button**
Easily legible from a distance, plus the integrated LED status ring shows the washing programme progress at all times
- **Cookware cleaning made easy**
The optional high-pressure washing programme makes short work of even burnt-on and starchy residues*
- **Energy efficient**
Double-walled hood closed on 5 sides retains heat in the washing chamber
- **Easy to clean**
Thanks to a tank system with rounded corners
- **Thermal disinfection for ultimate hygiene**
Impeccable hygiene and thorough disinfection in just a few minutes – clean enough to satisfy even the strictest hygiene standards*

Higher performance, lower costs

DOUBLE-RACK HOOD DISHWASHER

Swiss Made | ARIANE GTW 5700: Glasswasher and dishwasher

Dimensions:

Width 660 mm | depth 695 mm | height 2100 mm

Supreme convenience and performance in the kitchen – even in confined spaces. The patented, integrated rack lift lets two wash racks be washed simultaneously one above the other. All crockery and glasses are cleaned in a flash, saving both water and power. Perfect for all businesses that have to deal with large volumes of crockery quickly, such as restaurants, hotels, care facilities or hospitals.

Your benefits

- **Top performance**
The patented automatic vertical rack lift lets you wash up to 52 racks per hour
- **Space-saving and flexible**
Dishtables for clean or dirty dishes can be added on three sides
- **Double loads – half the work**
Second wash rack is lifted automatically
- **Automatic programme start**
The programme starts automatically as soon as the hood is closed
- **Large, responsive display with rotary push button**
Easily legible from a distance, plus the integrated LED status ring shows the washing programme progress at all times
- **Energy efficient**
Double-walled hood closed on 5 sides retains heat in the washing chamber
- **Economical**
Minimal water and power consumption
- **Easy to clean**
Thanks to a tank system with rounded corners

Our digital service extension for Ariane dishwashers

DIGITAL SERVICE PLATFORM

Developed in Switzerland | GG+connect

We developed the GG+connect customer and IoT platform to provide our customers with the best tools to help them remain successful in the digital age.

GG+connect features an integrated shop and gives you easy and secure access to many functions. You can use the cloud-based communication platform to access all your Gehrig Group service activities. Maintenance subscriptions, services or warranties – find out everything you need to know about upcoming or completed services. Manage your machine fleet conveniently from a tablet, computer or smartphone and contact Gehrig Group Customer Service at the touch of a button. Strictly regulated access rights ensure maximum security.

Appliance management

View all sites and monitor all devices. Understanding your machines' key operating data lets you optimise your processes.

Automatic notifications

Receive error messages by email, SMS or push notification. Automatic error messages mean you can respond more quickly and minimise downtime.

HACCP data*

Faultless compliance with hygiene regulations has never been easier. All washing cycles are digitally recorded. Just download and send a PDF file of the hygiene log.

Cleaning agents

Reorder with one click or even fully automatically. The portal sends you an order suggestion when your cleaning products are running low, based on your particular requirements. Alternatively, reordering can be done automatically.

The most sustainable subscription for catering businesses.

Lease the ARIANE 3300.

Hygieneprogramm

**SWISS
MADE**

Combining customer wishes with expert engineering:

ARIANE. IF IT SAYS SWITZERLAND ON THE OUTSIDE, THERE'S SWITZERLAND ON THE INSIDE.

Swiss Made | The new generation of GEHRIG dishwashers

The Gehrig Group AG has been uniting tradition with innovation

since 1946! And the same is true of our ARIANE product range. We put our trust in Swiss quality and innovative technology in both our production processes and the components themselves and conserve resources sustainably wherever possible. Without compromise.

GEHRIG dishwasher models are the perfect combination of **high-performance, space-saving technology, energy efficiency and spotless hygiene**. They are designed to **reduce your operating costs** by lowering water and power consumption. They also feature an integrated filter system that keeps the wash water clean for longer.

ARIANE models can be **used flexibly** in a variety of **different kitchen scenarios** thanks to the range of widths available and their ability to be adapted to fit existing kitchens. They are the complete package of premium quality and long service life. Our appliances are also **user-friendly** thanks to

large, easy-to-read

displays and a rotary push button for easy operation. Innovations such as **patented rotation monitoring** guarantee sparkling results and the tank systems are designed to be **easy to clean**, which further reduces maintenance requirements.

Special additional functions are also available depending on the model and variant. They include the **patented rack lift** in the GTW 5700 model for more efficient loading and the **automatic hood** in the GTW 3700, which makes manually opening and closing superfluous and noticeably reduces the workload. GTW 3300 models all come with an **illuminated washing chamber** for a good view at all times.

The ARIANE was developed on the basis of customer feedback and decades of engineering experience. It is the perfect solution for cleaning both glasses and crockery in various catering and care facilities.

MAKE THE FUTURE BRIGHTER AND THE WORKDAY EASIER FOR YOU AND YOUR EMPLOYEES.
